# BUILD BOLDLY.

## Help Build the Future of Christian Education in Monroe County.

Monroe County Christian School is at a turning point. In just eight years, we've grown from 9 to over 83 students – a 700% increase that reflects God's blessing and a strong demand for Christian education in the area. That growth is a blessing, but it also brings a clear need: we've outgrown our space, and it's time to prepare for the future.

The Build Boldly campaign is our next step, an ambitious \$20 Million investment to create a permanent, purpose-built school where students can thrive academically, spiritually, and socially for years to come.

700%

Total enrollment growth in eight years – proof of God's blessing and strong area demand.

\$20 M

Monetary goal to build a new K-12 facility and start a \$1 Million endowment to preserve the future of MCCS.

# OUR GOALS

# DREAM BOLDLY

01

## Foster Christ Centered Learning

We seek to develop young adults with a lifelong love for their Lord and a deep desire to learn about His word and His world as they grow in faith and impact His kingdom.

02

## Raise \$20 Million

We aim to raise \$20 million to fund a new K-12 facility and launch a \$1 million endowment to ensure MCCS remains strong, affordable, and Christ-centered.

03

## Strengthen Our K-12 Program

With a full K-12 program launching in '25-'26, we're enhancing curriculum, deepening discipleship, and ensuring long-term student success.

04

## Expand Programs & Activities

Introduce new offerings like Robotics, Chess, Athletics, Archery, Bowling, and expanded music programs, both vocal and instrumental.

– Carlo Hansen, MCCS Board Member

*Parents today need to have choice, especially now. Providing this building, providing for the teachers, will allow parents in Monroe County in the years ahead, no matter what happens in the public school, to have a Christian school option.*

## Steps that we've already taken to reach our goals.

- Secured 21 acres on the north side of Waterloo—an ideal location easily accessible from Route 3 and situated along the major north-south corridor of Rogers Street.
- Planned out a 40,605 square foot purpose-built K-12 facility consisting of 22 classrooms which include an art room, a science lab, a band room, a discovery room, a library, a cafeteria, breakout rooms, a multi-purpose gym & stage area, and 5 office spaces.
- Assembled a trusted team of architects, engineers, professionals, and community leaders to bring this vision to life.
